Extensible Quality Standard for Institutional Publishing (EQSIP) Focus Group

Pilar Rico-Castro (FECYT)
17 January 2024

Overview

❖ Duration: 36 months

❖ Starting date: September 2022

❖ Horizon Europe funding

❖ Budget €2.5m

❖ Participants: 23 public service scholarly organizations from 12 European countries

DIAMAS

WP3 Setting standards and assessing quality gaps

Lead: FECYT | **Partners (14)**: EIFL, JISC, DOAJ, CNRS, CNR, UniZD, FFZG, TSV, EKT, OPERAS, UGOE, AMU, OASPA, UB
Duration: M1 - M18

Objectives: Standardising and improving institutional publishing practices by developing:

I.   The Extensible Quality Standard for Institutional Publishing (EQSIP)
II. A self-assessment tool to be used and adopted by IPSPs to determine their level of compliance with EQSIP V2.

EQSIP will serve as a modular and flexible EU-level coordination tool accommodating the diversity of IPSP in ERA across countries, communities, and organisation levels.

Goal of this Focus Group

❖ **Legitimacy**: Understanding the extent to which EQSIP v2 requirements represent the quality standard that IPs recognize as their own.

❖ **Value**: Assessing whether EQSIP v2 is a DIAMAS-derived outcome deemed valuable by the IPs community.

❖ **Utility**: Exploring how EQSIP and the self-assessment tool can serve as a useful resource for the work of IPs.

❖ **Reliability**: Engaging in discussions on EQSIP v2 item content, addressing technical aspects of its formulation, and exploring the real implications of its detailed wording.

❖ **Hierarchy**: Analyzing individual items and categorizing them hierarchically into basic, intermediate, and advanced levels.

Goal of this Focus Group

WHAT:

Collect your feedback on the content of the EQSIP
https://docs.google.com/document/d/1aq2JRVXod9FSUC8oPpyHTwSGxyx28eRv/edit

EQSIP Background

❖ IPSP best practices report: **https://zenodo.org/records/10407498**

❖ EQSIP V1.0: **https://zenodo.org/records/10406062**

❖ Gap analysis: **https://zenodo.org/records/10083615**

EQSIP General Structure

- Do you think that EQSIP is a valuable tool?
- How much does the IP community need EQSIP?
- How do you think EQSIP will be useful for you?
- Is the EQSIP structure clear to you? Any improvement suggestions on it?
- Do you agree with the core components of EQSIP?
- Do you miss any core components in EQSIP? If so, please specify.
- Are there any core components that you do not agree with? If so, please specify.

Sections

- Do you think this section is necessary in EQSIP?
- Do you agree with the CONTENT of this section?
- Do you miss any items?
- Is there any item that you do not recognize as relevant for the IPs?
- Do you disagree with any item?
- Would you extend/reduce its applicability to books?
- Do you think the items in this section are RELEVANT for IPs?
- Can you order their relevance into basic / medium / advanced levels?

THANK YOU FOR YOUR CONTRIBUTION!
